DETAILED ACTION

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kobayashi(6,580,227) teaches an plasma display for applying blunt wave in an initial period.

None of cited references teach a method for driving a three-electrode surface discharge AC type plasma display comprising generating discharge only in a previous non-lighted cell that was not lighted in the last sustaining process that was performed before the initialization so that the wall voltage thereof approaches a wall voltage of a previous lighted cell that was lighted in the last sustaining process, in the first blunt wave application among the at least two blunt wave applications; and generating discharge in the previous lighted cell and the previous non-lighted cell so that the wall voltage of these cells change to set values, in the second blunt wave application, with all other limitation cited in claim 1.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lun-yi, Lao whose telephone number is (571) 272-7671.
